GMAX II ProContractor

Petrol-Powered Airless Sprayer for Professionals

For increased speed and productivity!

It's for YOU, the smart professional, that Graco keeps reinventing spray equipment technology. We know you're looking for the latest innovations to help you finish jobs faster, and with less fuss and fatigue. The ProContractor Series of our GMAX II range includes top-of-the-line innovations, for top of the line professionals who demand more than "just" high quality technology.

Choose the right unit

The GMAX II range is ideally suited for high-production professional contractors who demand uninterrupted performance without the need for electric power. The **GMAX II 3900** (120 cc) is the perfect sprayer for the professional paint jobs on new residential construction job sites. The **GMAX II 5900** is a step up from that. With its 200 cc Honda® engine, it delivers the output you require for larger commercial paint projects. Along with its high performance 200 cc Honda® engine, the **GMAX II 7900 HD** is equipped with a heavy duty pump, enabling it to easily spray all thicker coatings as well as the full range of primers and paints.

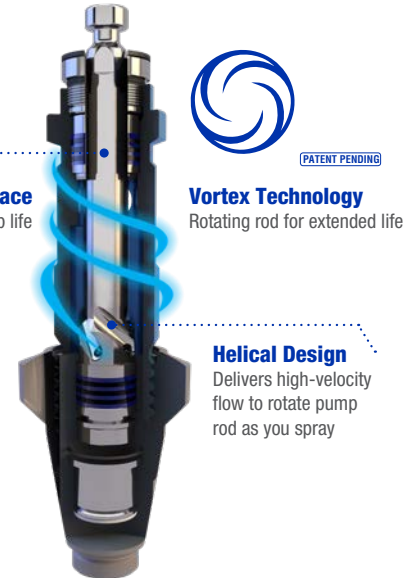

... and go for the ProContractor Series for ultimate comfort and luxury! Take a look at the latest innovative features we've added to the ProContractor Series in the GMAX II range.

This is what distinguishes you from other professionals. This is where you save time and money. This is where you stand out.

Endurance Chromex™ Pump

Vortex rotating piston technology keeps you spraying

360° Wear Surface
Delivers the longest pump life

Vortex Technology
Rotating rod for extended life

Helical Design
Delivers high-velocity flow to rotate pump rod as you spray

ProConnect™ 2 Pump Replacement

Complete no-tools pump replacement system

QuikAccess™ Intake Foot Valve

Clear debris faster with easy inlet ball access

Honda® Engines

The industry standard engine for the industry standard sprayer! All GMAX II units are equipped with Honda® engines (contractor preferred) that deliver unmatched performance to the pump.

QuikReel™ Integrated Hose Reel

Work more comfortably and more efficiently. Roll out and roll up max. 90 m of hose in just a few seconds - spray up to a range of 180 m without moving the unit. Get in, get out and move on to the next job site quicker than ever!

Materials & Applications

The GMAX II PROCONTRACTOR series are ideal units for spraying a full range of coatings during residential, commercial and industrial jobs.

Spray acrylics, primers, emulsions, waterborne and solvent-based paints with the 3900 and 5900, or upgrade to the 7900 HD to handle most common anti-corrosive and fire-retardant paints and Airless plasters as well!

SMARTCONTROL™

SmartControl™ 3.0 with LED Display

Protect and monitor your investment more easily, with the bright and easy-to-read LED display that shows the job/lifetime/liter counter and the self diagnostics provided by the new and improved “brains” of the unit - the SmartControl 3.0.

Contractor PC™ Gun

FINISH JOBS FASTER WITH LESS FATIGUE
Premium Comfort for All-Day Spraying

- Lightest gun in its class
- Up to 50% lighter trigger pull force
- E-Z Fit adjustable trigger length

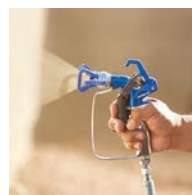

PATENT PENDING

REDUCE DOWNTIME WITH PROCONNECT
Complete Gun Rebuild in Seconds PATENT PENDING

- Needle and all wear parts in one simple cartridge

CONTRACTOR_{PC}

EXTEND YOUR SPRAYING AUTONOMY

When used with a hopper or container suction kit, you can work for longer periods of time before refilling. Use for overnight storage or to transport your material. You will save energy, time and money.

! TIP

Gradually begin working at low material pressure.

Slowly raise the pressure, but only to the minimum pressure required for successful application. Using too much pressure can cause pack-out due to aggregated materials or dirt.

For improved pump performance when spraying paint with the GMAX II 7900 HD unit, replace the ceramic ball in the lower pump with the SST ball (delivered free of charge with the unit).

VS

PATENT PENDING

OLD way

NEW way

Modular pre-oiled cartridge packings install correctly every time

QuikPak™ Cartridge System

Repack the entire pump in minutes

Insert pre-oiled packing cartridge assembly

Remove disposable clip

Assemble pump
