3M™ PPS™ Paint Preparation System

- Enhance quality
- Optimise efficiency
- Reduce solvents
- Maximise productivity
- Easy to use

**Easy to mix, spray and
cleanup – work smarter,
not harder.**

3M™ PPS™ Paint Preparation System.

The original innovative system from 3M™ enables painters to mix less paint and drastically reduce the amount of solvent and time required for gun cleaning, improving operator efficiency by as much as 15%.

Innovation. Efficiency. Productivity.
These are the values you've come
to expect from 3M™.

3M™ delivers all three values with the PPS™ Paint Preparation System. Make your job easier with this innovative system that increases efficiency by eliminating the need for traditional mixing cups and paint strainers.

Unlike traditional spray cups, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter. Specifically designed adapters allow painters to use the PPS™ system with virtually any spray gun.

A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down. Safe from outside contamination, the PPS™ system offers a cleaner, more efficient solution for all repairs from small spots to large surfaces.

Enhance your quality, reduce solvents, minimise waste, maximise productivity and make your job easier with the revolutionary 3M™ PPS™ Paint Preparation System, in a comprehensive range of size options allowing precise, accurate coverage.

**Faster mixing,
spraying and disposal.**

3M™ PPS™ Kit Mini Size – 1 vehicle panel repair

3M™ PPS™ Kit Mini Size

PN 16114

180ml full diameter

200 micron filters

3M™ PPS™ Kit Mini Size

PN 16752

180ml full diameter

125 micron filters

**Ideal for smart repairs and small areas
that require 180ml of material or less,
e.g. 1 vehicle panel**

3M™ PPS™ Kit Midi Size – 2 vehicle panels repair

3M™ PPS™ Kit Midi Size

PN 16112

400ml full diameter

Ideal for large jobs that require 850ml of material or less, e.g. 4 vehicle panels

Minimise use of cleaning solvents, solvent exposure and solvent disposal waste.

The 3M™ PPS™ Paint Preparation System can be used for all painting applications such as Primer, Base Coat and Top Coat. The key benefits of using the 3M™ PPS™ Paint Preparation System include:

- Only one PPS™ cup for mixing and spraying
- Enables painters to mix less paint
- Up to 70% saving of cleaning solvent
- Closed system – no outside contamination
- Faster system – from mixing to disposal
- Less operator exposure to solvents and reduction in VOCs
- Spray gun functions at any angle
- Available in 4 sizes: 180, 400, 650 & 850ml
