

INNOVATION SINCE 1947

Perfect surfaces and added value are our passion. Bringing colour, protection and function to surfaces is our mission. We dedicate all of our technical expertise to your objects and products, and support you with personal service. Using innovative technologies and highly efficient, reliable and user-friendly solutions, we are constantly setting new standards in surface technology.

For each newly purchased professional paint sprayer you receive a 3-year manufacturer's warranty from WAGNER. By registering online you can turn the 3-year standard warranty into a 5-year WAGNER professional warranty. This is unique within the industry! Our professional quality is the key and that's a promise.

SPRAYGUIDES

This is where you'll find answers about how to set up your device to suit the material and which paints and lacquers give the best spray results with your WAGNER model.

ADVANTAGES OF XVLP LOW PRESSURE SPRAYING

XVLP stands for eXtra Volume Low Pressure and refers to a low-pressure spraying technology which, in contrast to HVLP technology, works with 60 % higher air volume and 30 % better coverage. This results in an extremely high working speed with minimal spray mist. With this extra power, a significantly higher range of different materials such as high-viscosity lacquers and emulsion can be processed (additional spray attachments are available for this purpose).

Turbine air

The material is atomised at low pressure with high air flow rate

Pressure build up in 1 litre paint reservoir

FINISHCONTROL 4000 18V

BE UNSTOPPABLE!

go.wagner-group.com/contractor

Subject to changes - EN - 2454037 - 2023

FINISHCONTROL 4000 18V READY TO SPRAY. ANYWHERE.

The FinishControl 4000 18V cordless paint sprayer impresses with its unrestricted freedom of movement for painting smaller objects, repair and renovation work. With the StandardSpray spray attachment, FinishControl 4000 18V is the ideal partner for applying standard enamels and lacquers. The excellent batteries in combination with the brushless motor ensures enhanced runtime, longer service life and optimum atomization performance.

WAGNER is part of the AMPShare cross-brand battery system from BOSCH. This means that all Professional 18V rechargeable batteries offer flexibility for use in our Professional range as well as other participating partner brand devices.

Motorpower	370 W
Operating Pressure max.	0.2 bar / 0.02 MPa
Weight	1.9 kg (incl. battery) 1.3 kg (excl. battery)
Technology	Turbine
	Art. No.
FC 4000 18V FineSpray – Kit	2437240
FC 4000 18V FineSpray – Baretool	2437348
FC 4000 18V StandardSpray – Kit	2453688
FC 4000 18V StandardSpray – Baretool	2453687
