

Xtract™
Clean Sanding

**Go for
performance.
Leave the
dust behind.**

3M Xtract™ Cubitron™ II Net Disc 710W

The first high-performance sanding system from 3M.

Dust extraction meets industry-leading cut-rate in 3M Xtract™ Cubitron™ II Net Disc 710W. This premium sanding disc features a unique abrasive pattern on a net backing that allows for virtually dust-free sanding, with legendary 3M Precision-Shaped Grain technology. You'll finish more parts per disc with less dust in the environment, boosting productivity without sacrificing worker health.

Take advantage of 3M Xtract™ Cubitron™ II Net Disc 710W to gain a competitive edge in your industry — from metal fabrication and woodworking to aerospace, marine, rail and automotive OEM operations.

3M Xtract™ Cubitron™ II Net Disc 710W

Premium patterned product

- Unique hole pattern
- Up to 97% dust extraction
- Industry-leading cut-rate
- Designed to require less pressure

Revolutionary sanding technology.

3M has eliminated the tradeoff between dust extraction and disc performance. By combining legendary 3M Precision-Shaped Grain technology with a net backing, 3M Xtract™ Cubitron™ II Net Disc 710W achieves an industry-leading cut-rate while allowing for virtually dust-free sanding. Ceramic 3M Precision-Shaped Grain continually fractures into sharp cutting edges, delivering twice the abrasive life and cut-rate of leading competitor net discs.

Virtually dust-free sanding.

A cleaner work environment is a safer work environment. 3M Xtract™ Cubitron™ II Net Disc 710W extracts over 95% of dust produced during sanding, reducing exposure to airborne particles and creating a healthier, virtually dust-free work environment. Plus, the 3M Precision-Shaped Grain in the disc cuts with less pressure required by the operator, making for more comfortable sanding.
