

**3M** Science.  
Applied to Life.™

## Protection when you need it.

Designed for workers who put on and take off  
eyewear frequently throughout the day.

**3M™ Solus™ Eye Protection**

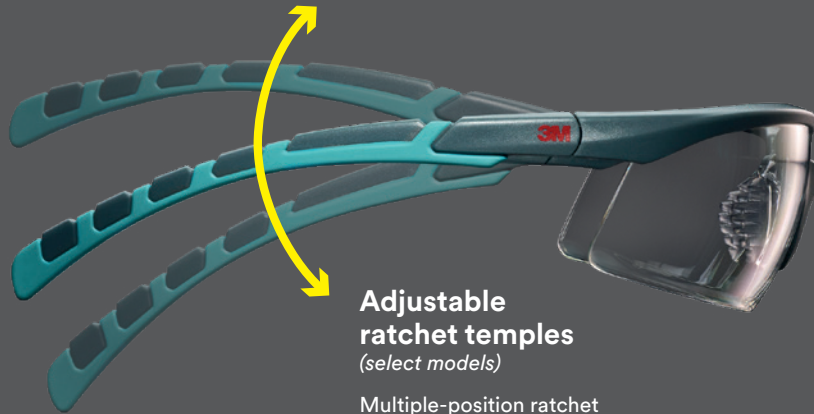

## Convenient. Versatile. Rugged.

### 3M™ Solus™ Eye Protection

Easy to put on and take off throughout the day. Available in a variety of colours and lens tints, with foam gasket and strap options that allow you to configure the eyewear to suit your application. It's the style you want with the durability you need. An all-in-one family of go-to safety glasses.

## Designed for robust protection.

### Adjustable ratchet temples *(select models)*

Multiple-position ratchet allows user to adjust lens for facial features and eyeglass position.

### Removable gasket *(select models)*

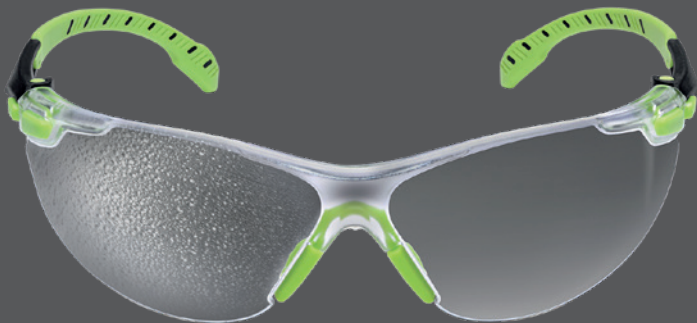

Helps limit eye exposure to dirt and debris.\*

\*Meets EN 166:2001 splash protection with TPE gasket and strap. Users must determine if eyewear is suitable for the application prior to use.

## The benefits are clear.

Fogged lenses can be frustrating and dangerous. But 3M™ Solus™ Eye Protection models featuring 3M™ Scotchgard™ Protector Anti-Fog Coating can help workers see clearly for longer, thanks to a formula that bonds the coating to the lens.

Uncoated

Microscopic water droplets bead up, forming condensation and fog, which obscure vision.

3M™ Scotchgard™ Protector Anti-Fog Coating

Reduced contact angle flattens water beads into a thin, transparent film that allows light to pass through.

### 3M™ Scotchgard™ Protector Anti-Fog Coating

- ▶ Resists fogging longer than traditional anti-fog coatings through up to 25 washings with water.\*
- ▶ Helps provide scratch resistance in tough work environments.
- ▶ Designed for working in challenging situations, such as hot and humid conditions, indoor/outdoor work, physically demanding tasks and climate-controlled areas.

\*Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

# 3M™ Solus™

Family of eye protection

Find the series with the right mix of features and value for you.

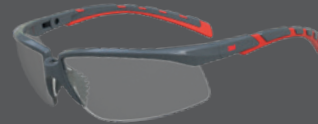

1000 Series

1000 TPE Series

2000 Series

CCS Series

# 1000 Series

Configurable design with detachable gasket, temple or strap options.

# 1000 Series

Sporty, low profile, available in multiple frame colours and lens tints with 3M™ Scotchgard™ Protector Anti-Fog Coating.

Sterilisation by autoclaving. Samples were subjected up to 40x automatic cleaning, disinfection and sterilisation by autoclaving at 121°C.

Testing was then carried out on the following properties:

- mechanical performance (FT)
- the anti-fog properties (N)
- the anti-scratch properties (K)
- optical performance (Class 1)

Based on the internal testing the claims remain valid.

Removable foam gasket helps reduce eye exposure to particulate hazards (kit models)

Polycarbonate lenses absorb 99.9% of UVA and UVB rays

Meets the requirements of EN 166:2001 Standard as an Impact Rated spectacle

Contemporary styling with soft nosebridge for added comfort

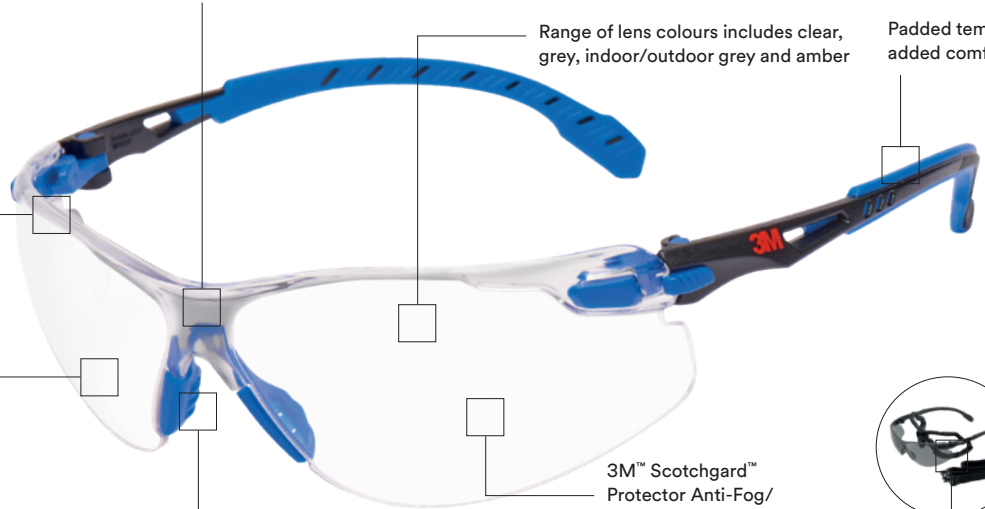

Range of lens colours includes clear, grey, indoor/outdoor grey and amber

Padded temples for added comfort

3M™ Scotchgard™ Protector Anti-Fog/ Anti-Scratch Coating

Kit options available with removable temples and optional elastic strap

# 1000TPE Series

TPE gasket offers robust protection with a flexible seal that adapts to contours of wearer's face.

# 1000TPE Series

When used in combination with strap, TPE gasket helps provide additional debris, splash and dust protection.

Polycarbonate lenses absorb 99.9% of UVA and UVB rays

Meets the requirements of EN 166:2001 Standard as an Impact Rated spectacle

Contemporary styling with soft nosebridge for added comfort

3M™ Scotchgard™ Protector Anti-Fog/ Anti-Scratch coating

Flexible TPE gasket adapts to wearer's facial contours to provide a tight seal and help protect against debris

Padded temples for added comfort

Removable temples and optional elastic strap  
Meets EN 166:2001 splash protection with TPE gasket and strap

Kit options available to configure eyewear for specific applications; includes removable temples, removable TPE gasket and optional elastic strap

Low energy impact protection (FT) when worn with temples.

When worn with TPE gasket and headband, provides medium energy impact (BT), protection against droplets or splashes (3) and protection against large dust particles (4).
