Painting & Renovation

Q1® prides itself on creating a range of masking tape solutions specifically for professionals within the painting and decorating market.

A dedicated range for both traditional and spray painting methods, this portfolio of products includes masking tapes, masking paper, pre-taped sheeting and other masking specialty products and tools.

Q1® Multiple Purpose Masking Tape

Semi-crepe paper masking tape with a natural rubber adhesive for superior hold and clean removal within 7 days of application. Designed for almost all indoor paint applications, it adheres without fault to smooth and irregular surfaces such as walls, skirting boards, trims, wood and metals. It offers enough holding power for use with masking paper or film.

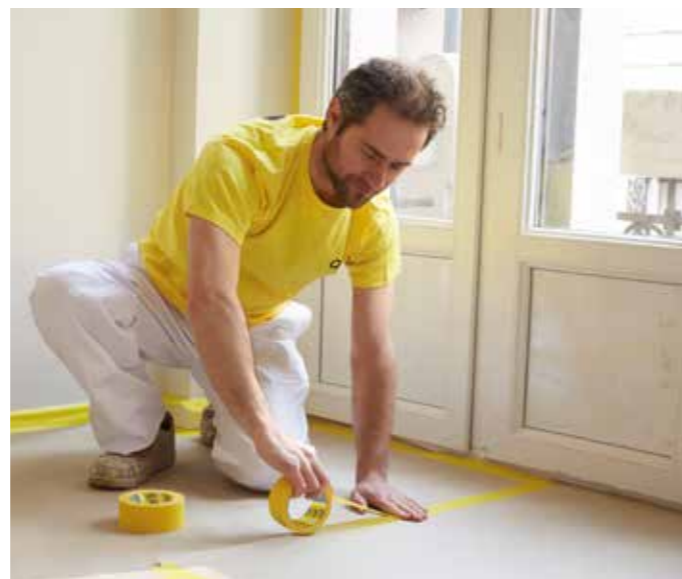

Features & Benefits

- Natural rubber adhesive for superior hold and clean removal
- Ideal for indoor use on both smooth and irregular surfaces
- No bleed through
- 7 days clean removal
- Tears neatly off the roll for effortless application

Q1® Pre Taped Washi Film

Pre-taped with Q1® Precision Line Masking Tape, this electrostatically treated masking film prevents over-spray flaking and drips, which means you can re-coat and clean up with complete confidence during any paint application.

Ideal for quickly and easily masking both large and small surfaces whilst creating precise razor-sharp lines, this film is available in a variety of sizes, including; 550mm x 33mm which is perfect for windowsills and skirting boards, a 1400m x 33mm option for windows and kitchen cupboards and larger 2100mm x 20m or 2700mm x 16m for doors, walls and cabinetry.

It's suitable for both indoor and outdoor use and is removable without a trace of adhesive residue for up to six months after use (indoor only). To make application easier, why not use it alongside the Q1® Masking Film Dispenser.

Features & Benefits

- Different dimensions for covering both small and large surfaces
- Pre-taped with Q1® Precision Line Masking Tape for razor sharp lines.
- Suitable for indoor and outdoor use
- Quick and fast masking
- Unfolds easily and sticks well to surface

Q1® Pre Taped Masking Paper

The ideal solution for protecting surfaces against paint splatters or drips, the Q1® Pre-taped Masking Paper is for interior use during any painting and decorating project. Measuring 180mm X 25m and 300mm X 25m, it is the right size for the protection of skirting boards, architraves, window frames and light switches.

It adheres without fault to wood and metal and conforms well to difficult curves or corners, featuring quick-stick, with reliable clean removal without leaving residue.

Features & Benefits

- Ideal for covering small surfaces
- Suitable for indoor applications
- Offers fast masking of critical areas
- Clean removal without leaving residue
- Flexible and conformable performance

Q1® Handy Masking Paper

High-quality masking paper makes masking up quick and effective for both brush and spray painting methods.

Suitable for both water and solvent based paints and available in two sizes, the Q1® Handy Masking Paper is ideal for protecting large areas from over spray as well as quickly covering beams, window sills and corncing. Standard 25mm core size fits all hand masking machines.

Features & Benefits

- High quality paper to prevent drips and flaking
- Compatible with solvent and water-based paints
- Suitable for use with masker dispenser
- Ideal for protecting door frames, window frames, beams and for general purpose surface protection

Q1® Cover All

The perfect solution for rapid coverage of large areas, the Q1® Cover All protects carpets, floors and furniture from paint, dust and spills even in the messiest of projects. Thanks to an exclusive patented system it is faster and easier to unfold and open out compared to others products. This sheet is electrostatically charged so that it doesn't slip or flutter when you pass by.

Features & Benefits

- Fast and easy unfolding
- Provides furniture and floor protection from overspray, dust and spills
- Ideal for properly covering and draping goods in storage
- Excellent adherence on all surfaces

Q1® Masking Film Dispenser

Make masking with pre-taped film easy with the Q1® disposable masking film dispenser. Portable and simple to use, the serrated blade will cut both the tape and film in one movement saving you time and preventing uneven ripped edges.

Keeping your pre-taped film in peak condition during projects, this disposable masking film dispenser comes in two sizes to fit cores with a length of 10cm and 20cm.

Features & Benefits

- Serrated blade to cut both tape and film
- Makes masking faster
- Two sizes that fit all the pre taped masking film and paper.
- Keeps film and tape in pristine condition between projects
