The cup system for mixing and painting

SATA® RPS® – The Original.
The safe, refillable cup system for professionals: easy, perfect and without compromise

SATA RPS (Rapid Preparation System) is the ideal cup system for shops focusing
on perfect finishes and high profitability. It makes a painter's life much
easier, considerably increases productivity and drastically reduces
the consumption of cleaning solutions and solvents.

| Mixing | Painting | Storing | Disposing |

SATA® rps dispenser®

CHARACTERISTICS

- Easy to use – only 3 parts
- Constant material flow – helps the painter to achieve perfect coating results just like child's play
- Allows very quick colour changes – cleaning becomes a secondary issue
- The special lid shape ensures complete consumption of the paint contained in the cup
- Large number of mixing ratios (up to 100 variations)
- Fits directly on all SATA spray guns
- Stable cup ensures safe storage of leftover material
- Reduces cleaning efforts and solvent consumption

- Available in the 3 cup sizes 0.3 l, 0.6 l and 0.9 l
- Different strainer types available

For selecting the correct sieve fineness, please ask your paint manufacturer.

Available in 3 different cup sizes
